

Orange Elementary has just started tracking a school wide goal! Master Minutes!

There are two bright green papers coming home with your child. One of these papers has a Choice Menu on it for your child. Find the grade level that your child is in and have them work on an activity for 20 minutes each night. The second paper is for the activities to be recorded. Each day record what the date is, what activity is worked on, and for how long. At the end of the week sign this paper for your child, help them figure out how many days they participated for 20 minutes a night, cut that week's strip off of the tracking sheet, and send back to school with your child.

If you have any questions please feel free to contact your child's teacher! We are excited to have students working outside of school on mastering the area of Academics that they feel they need improvement in! Each month the school wide goal progress will be posted in the hallway for everyone to see!
