

Project Proposal

Project Manager: _____ Grade and Teacher: _____

Name of Project: _____

What is your “End in Mind” for this project? It must be a specific need that you have identified, not a ‘means’!

How did you get this idea?

Who is your target group? Who will benefit from this project? How will this be a “win-win”?

Have you been proactive and researched the group or cause? What did you find out?

What students or grade levels will be synergizing on this project?

Proposed length of project? (From the time it is introduced to students until time of completion.)

Did you ask a staff member to help you with your plan? (List name below).

Does this involve any community leaders or organizations? (If yes, list contact name and phone # below).

I have shared my plan with an Orange staff member and one other person who understands my “End in Mind” and is willing to meet with students during a set meeting time.

Student Signature: _____

Signature #1: _____

Signature #2: _____

Date Submitted: _____

“Inspiring a community of life-long learners and leaders.”
